

Alex Berson Co-Vice Chair

Alex Berson is the inspiration for Shred Kids' Cancer. He is one of the bravest people we know to have endured more than two years of physical, mental pain and social isolation that came with battling non-hodgkins lymphoma. He has been a huge supporter of Shred Kids' cancer with his creative ideas and comedic insight. He has volunteered many hours as well as presented other charities to share his personal battle with many strangers in hopes of increasing awareness. He also feels he owes his life to the heroes at Mattel Children's Hospital UCLA and feels that giving back his time to raise funds for their research is the least he can do for all they did for him.

In his free time Alex enjoys playing bass guitar with his original band **Alcove Children** and is a sophomore at Agoura High School. He hopes to get his driver's license soon!
